Educating Rural India - Ritvi Mishra
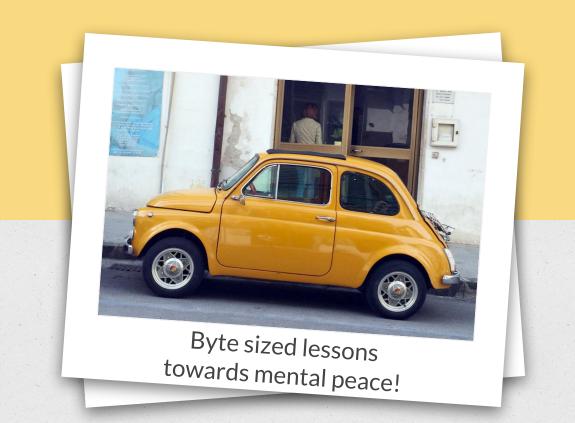

RITVI
MISHRA

Hey!

I am second year, Electronics and Telecommunication student, studying in Cummins College of Engineering for women, Pune.

The condition in rural India is sad, especially whe it comes to education, to be kore precise girl child's education. Children are made to do occupational work as a part of

The negligence in education results in the children becoming adults dependent on the ways taught by their elders, leaving them victims to every other situation put upon them, be it natural calamities or financial troubles.

I want to empower these kids, such that, they understand the value of their occupation and can face every situation thrown at them head on.

- The app/webapp will provide a pathway to every profession and occupation.
- It will eventually have ML based predictors and recommendations system.
- It will be equipped with incentivised quizzes and exercises which will help the learners stay focused and regularly work towards their goal.

Byte sized lessons
towards mental peace!

Thank You!
